# SUSTAINABILITY & QUALITY

At Marc'Harit we work with the best quality of cultured pearls, hence, we offer our customers sustainable pearls. The pearls appear with the qualities the oyster has created. We visit our suppliers, the pearl farms, in French Polynesia, the Philippines, Indonesia, and Mexico regularly.

This way, we ensure that the conditions under which the pearl production takes place, comply with the sustainable principles.

That same attention to quality and sustainability is brought into the design and choice of materials in the Marc'Harit Jewellery Collections.

Every piece of jewellery has gone through our hands, and we only use the best quality and natural colours from traceable sources when adding gemstones to our jewellery pieces.

All pieces are made from precious metals.

# ABOUT MARC'HARIT

The name Marc'Harit is the Celtic rewriting of the name Marguerite, which means pearl in Greek. The founder of Marc'Harit is pearl specialist Kira Høg Kampmann. As 21-years-old she sailed the South Pacific Ocean and found her passion for pearls on a small atoll in French Polynesia. After her stay in French Polynesia Kira made it her mission to present the Tahiti pearl to the world. Kira's passion and expertise is the DNA of Marc'Harit and today we deliver pearls and pearl jewellery to jewellers, designers, and manufacturers all around the world from our Copenhagen based office in Denmark.

As a pearl supplier Marc'Harit offers not only exclusive jewellery collections but also cultured Tahiti pearls, white and golden South Sea pearls, Fiji pearls, Akoya pearls and Cortez pearls. Furthermore, we have a selection of high quality Freshwater pearls and niche products such as faceted and engraved pearls.

## *Options and Presentation*

Please note that every pearl is unique and differences in shape and colour according to the pictures in this catalogue can appear. Some of our collections celebrate the difference and uniqueness of every pearl with baroque shapes and fancy colours, in the Marc'Harit Classic Collection we have the possibility to minimize the differences.

We offer a range of additional material to support the story of the cultured pearls in your store: A discrete quality stamp for display, and brochures, pearl certificates and pearl care instructions to give at every Marc'Harit pearl or pearl jewellery sale. We also encourage you to have a look at our display solution Islands. We offer you a full display for your store to present the jewellery and to tell the story about the origin of the pearls.

As a supplement to our assortment of high-quality cultured pearls, we have designed the Marc'Harit Jewellery collections. The pieces are designed by Marc'Harit and hold the cool Scandinavian feeling mixed with the exotic touch and uniqueness of every pearl. Our jewellery collections are presented in three universes.
